It is informally ascertained that the work was provided for by the Chief Engineer in his 1926 budget estimates for 26-27 but was ordered to be deleted. There is no provision for the work in the Provisional budget.

But the position is not clear one.
The cost is Rs 11,370. How much of it is for contribution of municipality respectively?
The municipality has purchased present building for Rs 7000. Has this been paid for & is it used for other purposes; & is the contribution now promised by municipality half of 11,370?
Is P.W.D. agreeable to spending municipality quota next year & for quota in 27-28?

10/6

10/6

There is no question of any contribution or any share of the cost of the new building by the municipality. The old building had been built with amounts contributed in the usual way. That building was sold and Govt. has to provide a new building entirely at its own cost. The municipality bought the building and has to pay the purchase amount. (Rs 7000). It will appear that the building is being used as Mt. Offices. How much of the Rs 7000 which the municipality has to pay has been provided in the Mlty's budget does not appear. It is probably Rs 3500/- If approved the Ch Engineer may be asked to use this amount in 1926-27 and provide the balance of Rs 3500 which will be paid in 1927-28 in that year. The amount which Govt has to spend in addition may if possible
